1 System Overview

Topics covered in this chapter

♦ Release 2021.0 New Features
♦ Before You Begin

The Odyssey® File & Serve™ system enables registered users to file documents with the court anytime, anywhere, 24 hours a day, seven days a week. This highly automated, scalable system provides clients the opportunity to transition from an inefficient, paper-based process to a streamlined, technology-based electronic filing (e-filing) system.

Release 2021.0 New Features

This section lists the new features for Release 2021.0.

Note: Features vary based on your system configuration.

Support for Mail-Only Service Contacts

The **Email** field in the **Service Contacts** section of a filing is no longer displayed when only a mailing address is required, and service contact notification only occurs by U.S. mail.

Note: This feature is configured by Tyler and may not be available on your system.

Note: Service contacts that are created through the use of the Add New Mail Service Contact option cannot be changed to add an email address at a later time.

2 E-Filing Overview

Topics covered in this chapter

♦ Filing Queue Status

This section describes the e-filing process.

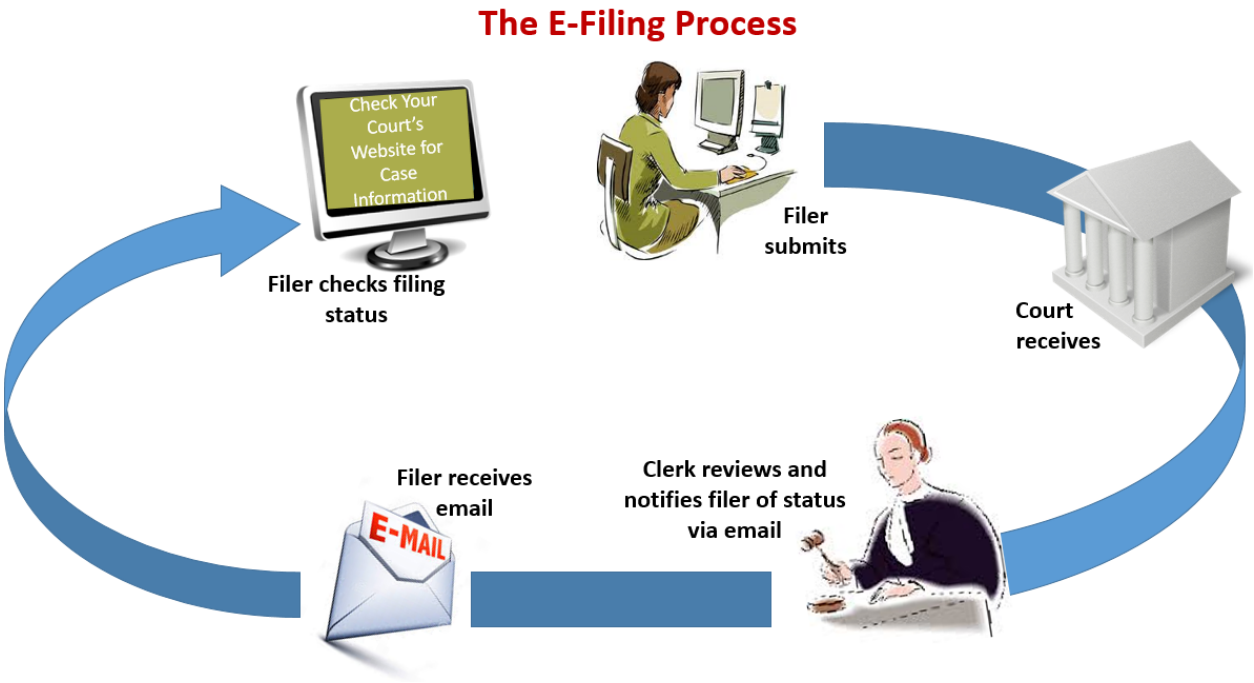

Figure 2.1 – The E-Filing Process

Once a user has registered to use Odyssey® File & Serve™, a filer can electronically file documents to the court. When the filing is submitted, the filing is electronically delivered to the clerk's inbox. The clerk then reviews the filing and either accepts, rejects, or returns the filing.

If the clerk accepts the filing, the case is docketed and set to appear in the clerk's case management system. An email is sent to the filer with the case status, along with any pertinent information regarding the case. If the option for service was selected during the filing, service is electronically sent to the contacts on the case.

If the filing is returned or rejected, the envelope is sent back to the filer with a reason for the rejection, and the filer is given a time line in which to make the correction and resubmit the filing.

If the filer has questions regarding the filing or case, it is recommended that the filer contact the local court.

Filing Queue Status

The filing queue status lets you know where you are in the e-filing process. The key represents the status listed for your filing.

The following filing status key table describes the status associated with each filing type.

Note: EFO – EFile Only; EFS – EfileAndServe; SO – Service Only

Status	Filing Type	Definition
Draft	EFO, EFS, SO	The filer has entered full or partial filing data, but has not yet submitted the filing.
Submitting	EFO, EFS, SO	The filer has submitted the filing, but the document file format and payment information have not been verified on the back end.
Submitted	EFO, EFS, SO	The document file format and payment information have been verified and accepted, but the filing has not yet entered the Review Queue/Workflow Process.
Court Processing	EFO, EFS, SO	Some additional action needs to be taken by the court.
Under Review	EFO, EFS	A clerk reviewer has selected a filing from a queue. **Note: Once a filing reaches the Under Review status, it cannot return to the Submitted status. Selecting the End Review retains the Under Review status and returns the filing to the queue.**
Receipted	EFO, EFS	The filing has been acknowledged by the court as received, but it is not being transmitted to the case management system to become part of the court record. The filing may or may not be part of the proposed order work flow.
Accepted	EFO, EFS	The reviewer has reviewed the filing and accepted it.
Rejected	EFO, EFS	The reviewer has reviewed the filing and rejected it.
Returned	EFO, EFS	The reviewer has reviewed and returned the filing because the filer must take additional action.

Status	Filing Type	Definition
		Note: The filer can cancel or copy a filing in the Returned status.
Served	SO	Service Only filings are completed.
Service Incomplete (Service Only filings)	SO	One or more servings failed; the service was incomplete. Example: The email or domain was rejected.
Canceled	EFO, EFS, SO	The filer has canceled the filing. The filer can only cancel draft and submitted filings.
Submission Failed	EFO, EFS	A file format or billing error has occurred when the filer submitted the filing. Failure specifics are available on the *Details* page, and the filer is notified of specifics through email.
