# 2 E-Filing Overview

## Topics covered in this chapter

### ◆ Filing Queue Status

This section describes the e-filing process.

**Figure 2.1 – The E-Filing Process**

Once a user has registered to use Odyssey® File & Serve™, a filer can electronically file documents to the court. When the filing is submitted, the filing is electronically delivered to the clerk's inbox. The clerk then reviews the filing and either accepts, rejects, or returns the filing.

If the clerk accepts the filing, the case is docketed and set to appear in the clerk's case management system. An email is sent to the filer with the case status, along with any pertinent information regarding the case. If the option for service was selected during the filing, service is electronically sent to the contacts on the case.

If the filing is returned or rejected, the envelope is sent back to the filer with a reason for the rejection, and the filer is given a time line in which to make the correction and resubmit the filing.

If the filer has questions regarding the filing or case, it is recommended that the filer contact the local court.

## Filing Queue Status

The filing queue status lets you know where you are in the e-filing process. The key represents the status listed for your filing.

The following filing status key table describes the status associated with each filing type.

**Note: EFO – EFile Only; EFS – EfileAndServe; SO – Service Only**

Status	Filing Type	Definition
Draft	EFO, EFS, SO	The filer has entered full or partial filing data, but has not yet submitted the filing.
Submitting	EFO, EFS, SO	The filer has submitted the filing, but the document file format and payment information have not been verified on the back end.
Submitted	EFO, EFS, SO	The document file format and payment information have been verified and accepted, but the filing has not yet entered the Review Queue/Workflow Process.
Court Processing	EFO, EFS, SO	Some additional action needs to be taken by the court.
Under Review	EFO, EFS	A clerk reviewer has selected a filing from a queue.  <b>Note: Once a filing reaches the Under Review status, it cannot return to the Submitted status. Selecting the End Review retains the Under Review status and returns the filing to the queue.</b>
Received	EFO, EFS	The filing has been acknowledged by the court as received, but it is not being transmitted to the case management system to become part of the court record. The filing may or may not be part of the proposed order work flow.
Accepted	EFO, EFS	The reviewer has reviewed the filing and accepted it.
Rejected	EFO, EFS	The reviewer has reviewed the filing and rejected it.

Status	Filing Type	Definition
Returned	EFO, EFS	The reviewer has reviewed and returned the filing because the filer must take additional action.  <b>Note: The filer can cancel or copy a filing in the Returned status.</b>
Served	SO	Service Only filings are completed.
Service Incomplete (Service Only filings)	SO	One or more servings failed; the service was incomplete. Example: The email or domain was rejected.
Canceled	EFO, EFS, SO	The filer has canceled the filing. The filer can only cancel draft and submitted filings.
Submission Failed	EFO, EFS	A file format or billing error has occurred when the filer submitted the filing. Failure specifics are available on the <i>Details</i> page, and the filer is notified of specifics through email.

From this page, you can view the status of your filing, check the filing type, get a document description, see the number assigned to your case, review the details of the case, and cancel a filing. You can also view the time and date that the filing was submitted. The time stamp corresponds to the time zone in which the filing occurred.

## View Filings

You can view the details of a case after starting a new case or filing into an existing case by using the *Filing History* page.

Use the *Filing History* page to perform many of the tasks associated with e-filing. From the *Filing History* page, you can manage your service contacts on a case, view the details of the case, add existing case filings to a case, resume (continue) the filing process of a case saved as a draft, and cancel a filing.
